You've made it this far, thank you for your consideration!

It's true what they say. After months of planning, stress, and excitement, your wedding day really will go by in a flash. What's important is working with the right photographer to document it all! Capturing the special moments of one of your biggest days, especially with a photographer who understands your vision, will have you reflecting on these memories year after year.

It's always an honor of mine to be trusted to capture weddings. I first picked up my camera in 2014 and I've been shooting portraits and events professionally throughout New York State ever since. Since 2020, I've also worked as a creative director and graphic designer, specializing in visual storytelling and capturing images that compliment impactful design projects.

Decide which package is your best fit and we can arrange a meeting or call to discuss further. We can always work out something out to create a package that is ideal for you.
